

LEED v4 Building Design and Construction

Quiz #9

IN & RP

1. What strategy can be used to earn IN Credit Innovation? [Choose three]
 - A. Extraordinary Performance
 - B. Exemplary Performance
 - C. Innovation
 - D. Pilot Credit Library
2. LEED rating systems are based on 100 base points; Innovation (IN) and Regional Priority (RP) credits provide opportunities to earn how many bonus points?
 - A. 5 for IN and 5 for RP
 - B. 6 for IN and 4 for RP
 - C. 4 for IN and 6 for RP
 - D. 7 for IN and 3 for RP
3. If a LEED project has 4 team members that are LEED AP BD+C and 3 are principal members of the project team, how many points will the project be eligible to earn?
 - A. 0
 - B. 1
 - C. 3
 - D. 4
4. In what LEED category can projects receive credit for having a LEED AP with specialty on the project team?
 - A. Regional Priority
 - B. Team Administration
 - C. LEED Online
 - D. Innovation (IN)
5. How can a project team earn IN credit Innovation? [Choose Two]
 - A. Achieve significant, measurable environmental performance using a strategy not addressed in the LEED green building rating system.
 - B. Achieve a credit in a rating system the project is not using
 - C. Achieving double the credit requirements of any existing credit
 - D. Achieving double the credit requirements and/or achieving the next incremental percentage threshold of an existing credit
6. What is the intent of the Regional Priority credits?
 - A. To streamline the application and certification process
 - B. Educate the project team members about green building design and construction
 - C. To conserve water and reduce water usage in an arid area
 - D. To provide an incentive to earn credits that have been prioritized because they address specific environmental issues
7. Which of these determines the Regional Priority Credits that a project qualifies for?
 - A. Area Code
 - B. Climate Zone
 - C. Site Zone Classification (RP-33)
 - D. Zip Code
 - E. Project location

8. Which of the following are examples of credits that can earn exemplary performance? [Choose two]
 - A. Heat Island Effect Reduction
 - B. Locating the Project on a Brownfield
 - C. Forbidding building users from smoking in the building
 - D. Quality Views

9. Which of the following statements are true about have a LEED AP with specialty on Staff? [Choose two]
 - A. At least one LEED AP with specialty is required for a project to earn certification
 - B. A LEED AP with specialty helps to streamline the application and certification process
 - C. Rating systems allow for one IN Credit Innovation point for having at least two LEED APs with specialty on staff
 - D. Rating systems allow for one IN Credit Innovation point for having one LEED AP BD+C on staff

10. Which of the following are examples of exemplary performance? [Choose two]
 - A. Provide an educational outreach program with guided tours of the building
 - B. Significantly reducing indoor water use beyond the LEED requirement of 40%
 - C. Doubling density requirements
 - D. Integrative pest management plan

11. The LEED AP with specialty credential can be maintained through which of the following methods? [Choose two]
 - A. Retaking and passing the LEED accreditation exam
 - B. Earning 30 continuing education hours per credentialing period
 - C. Earning 15 continuing education hours per credentialing period
 - D. Attending GreenBuild

12. Which of these are required to earn IN Credit Innovation using a Pilot credit? [Choose two]
 - A. Register for a selected pilot credit
 - B. Complete the credit's feedback survey
 - C. Complete the credit requirements at the maximum performance threshold
 - D. Attempt pilot credit before preliminary review
