# Trimble® Accubid Classic Estimating | 12.5.1 Release Notes

Periodically, Trimble provides software releases that include modifications and enhancements to our software applications. We are pleased to announce the **Version 12.5.1 release** for our **Classic Estimating** software product line. This document provides you with important information pertaining to the feature modifications included in this release of our software.

## Compatibility

The Classic Estimating, version 12.5.1, software is compatible with the following applications:

- **Trimble® Accubid LiveCount™ software, version 4.0.1**

  The LiveCount application allows you to use an electronic project drawing to measure and count items.

- **Trimble® Work Management software**

  Integrated into the Trimble® Accubid Time & Material Billing software:
  Provides intelligent scheduling tools for those companies with a mobile workforce.

## Modifications

### Classic Estimating Software

- The *Final Price* tab now calculates automatically when values are changed in other screens. No additional process is required to update these final values.

- The selection list under the *Probe Options / General* tab no longer specifies the LiveCount™ software version number (**Takeoff / Configure Probe**). For compatibility information, please refer to the Technical Specifications for the Classic Estimating product on the mep.trimble.com website.

### Time & Material Billing/ChangeOrder Software

- When you change your Windows screen resolution to Medium (125%) or Large (150%), the layout of a Time & Material Billing or ChangeOrder PDF file now reflects proper formatting based on the resolution selected.

- *For customers upgrading from versions prior to 11.0.1 only:* All data is retained as expected after upgrading to the current version and then performing a rescan of your database.

## Install Update Recommendation

Depending on the version you are upgrading from, the update may take additional time. *Trimble recommends that you install software updates during the least busy time of your day.*
